[ OSCAR ]

# Winning score

During 2016 pet food specialist OSCAR celebrated the addition of 20 franchise sales to its growing network of nutritional advisers

**W**ith a comprehensive training and support

infrastructure, OSCAR ensures it accommodates the varying needs of people from diverse backgrounds and skill sets.

Covering a wide range of topics, the company's training is supported by online resources and user friendly technology. In 2015, OSCAR was the first and only pet food franchise to launch a CertCan (QCF level 3) qualification, providing franchisees with a recognised accreditation.

### NEW INVESTORS

A highly successful network of franchisees means resale business opportunities are available because of possible retirement or changes in personal circumstances - leaving the door open for new investors.

A business with an existing income and client base is a positive sign of a healthy franchise network.

While the pet food industry is competitive, OSCAR keeps abreast of the market when it comes to pet nutrition awareness. And with its extensive range of pet foods, pet care products, accessories and services, your OSCAR business is all set for success.

### GREAT POTENTIAL

Dedication and enthusiasm combined with self belief means every OSCAR business has great potential.

There is no time to sit back and wait. OSCAR is already creating new and exciting advancements for the year ahead - definitely something to watch for in 2017.

**A BUSINESS WITH AN EXISTING INCOME AND CLIENT BASE IS A POSITIVE SIGN OF A HEALTHY FRANCHISE NETWORK"**
